JUICE & Splash Color Disclaimer:

Scientifically it is not possible to achieve a perfect color match from one JUICE garment to another, or from JUICE garments to CHAMPRO stock garments. Therefore, we cannot guarantee a perfect match from order to order or from one fabric to another. If you have questions about our colors, please contact us for more information. Art submissions with specific Pantone Color call outs will automatically be converted to CMYK. If your job is color sensitive, please contact us for information on color matching services. RGB files will be converted to CMYK; some color shifting will most likely occur. Unless a sample is ordered, CHAMPRO is not responsible for unsatisfactory color results.

JUICE & Splash Color Matching:

We cannot color match gradients. We print digitally in CMYK and use PMS colors as a guide; therefore the colors are not exact. If you have a color sensitive project, we highly recommend that you order a sample. In the event that you do not, we will match as close as possible to the PMS colors provided, but are not responsible for the colors not printed to your liking.

NFHS or Other League Uniform Compliance

CHAMPRO Sports cannot guarantee that the jersey you designed complies with NFHS or any other league requirements. Meeting league compliance must be stated when the order is placed and details of the requirements must be submitted. CHAMPRO Sports will use the information to make every effort to meet your league's requirements. CHAMPRO Sports will not accept returns on orders that do not comply with your league's requirements unless CHAMPRO Sports is made aware of the requirements.

SPLASH Process Limitations:

We will try our best to deliver your garments free of any defects or imperfections. However, during the manufacturing process the garment may not lay completely flat. This may cause some imperfections such as white or uneven areas, particularly under the armpit or along a seam. Although we will do everything we can to minimize these occurrences, we cannot be responsible for the imperfections as they are the result of the finished garment sublimation process. Variations between garments will occur and no two garments will be completely identical.
